# Why Choose

DQE offers a wide variety of stock PPE kits spanning the full range of protection levels.

## Dependability

PPE kits are designed around best-in-class quality components from industry leading brands. Kits are well packaged with clear labeling for efficient storage and deployment.

**30 years of expertise and focus on YOU!**

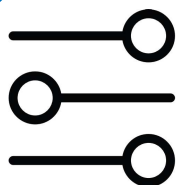

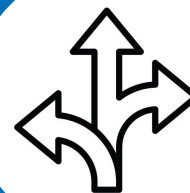

DQE's access to top brands means you can get what you need. Our stocking position means fast fulfillment and most kit components are also available for bulk supply.

## Availability

## Flexibility

Don't see a stock kit that meets your needs - no problem. After a short needs assessment, we can offer alternative solutions for your team or organization.

Don't forget, DQE offers PPE solutions from non-hazardous particle through Level-A and flash protection. We have access to the full lines of the featured brands listed on the front and much more!

## Range
