Why Choose DQE®

Portable decontamination designs for a variety of deployment scenarios.

Dependability

DQE shower systems are designed with robust, high quality components for years of service.
Deployment proven part labeling and instructions.
Durable storage bags included with every system.

## 30 years of expertise and focus on YOU!

Availabilty

Best-in-class Limited Lifetime Warranty on shower parts.
In-House fabrication will keep you up and running. We have been the sole designer and equipment manufacturer for over 30 years.

Flexibility

Don't see a design that meets your needs - no problem.
After a short needs assessment, we can offer alternative solutions for your facility situation.

Range

DQE has developed a full line of portable decon shower system solutions to support first responders through Healthcare First Receiver Operations. Interoperability and equipment familiarity across agencies elevates the value of your investment.

Contact your DQE Representative for specifications and assistance with all your decon line operation needs.
